

## Product Data Sheet

## Doc-6 (130-145)

| Catalog #          | Source                                                                                        | Reactivity | Applications |
|--------------------|-----------------------------------------------------------------------------------------------|------------|--------------|
| CCP2251            | Synthetic                                                                                     |            |              |
| Description        | Peptide to Doc-6 (130-145)                                                                    |            |              |
| Form               | Lyophilized powder                                                                            |            |              |
| CAS Number         |                                                                                               |            |              |
| Molecular Formula  | C86H134N26O26S                                                                                |            |              |
| Molecular Weight   | 1980.25                                                                                       |            |              |
| Purity             | > 95%                                                                                         |            |              |
| Chemical Structure | Gly - Val - Gln - Arg - Glu - Gln - Asn - Glu - Arg - Phe - Asn - Val - Tyr - Leu - Met - Pro |            |              |
| Storage/Stability  | Shipped at 4°C. Store at -20°C for one year.                                                  |            |              |
| Structure          |                                                                                               |            |              |

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish
