

## **Product Data Sheet**

## hsa-miR-585-3p miRNA Inhibitor

| Catalog #      | Source        | Reactivity   | Applications   |  |  |  |
|----------------|---------------|--|--|--|--|--|
| CIH0357        | Synthetic     | Н  |  |  |  |  |
| Description    | Synt          | hetic miRNA inhibitor  | s are used to inhibit hsa-miR-585-3p by transfaction.    |  |  |  |
| Specificity    | miR           | NA Inhibitors are cher   | nically synthesized, complementary, antisense            |  |  |  |
|                | sing          | le-stranded oligonucle   | eotides to their target, endogenous mature miRNA. It     |  |  |  |
|                | effe          | ctively prevents the ta  | rget miRNA to bind to normal cellular binding sites.     |  |  |  |
|                | Tran          | sfection of inhibitors   | followed by downstream gene expression analysis or       |  |  |  |
|                | phe           | notypic analysis, is pe  | rformed to elucidate the targets and roles of particular |  |  |  |
|                | miR           | NAs.   |  |  |  |  |
| Form           | Lyop          | hilized powder   |  |  |  |  |
| Gene Symbol    | hsa-          | miR-585-3p   |  |  |  |  |
| Accession No.  | . MIN         | 1AT0003250   |  |  |  |  |
| Components     | This          | synthetic miRNA is ba  | ased on the mature miRNA sequence. It does not contain   |  |  |  |
|                | the           | full precursor miRNA   | stem-loop.   |  |  |  |
| Directions for | <b>Use</b> We | We recommend re-suspending the lyophilized synthetic miRNA using DNase and |  |  |  |  |
|                | RNa           | se-free ddH2O. To ma   | ke a 100 uM stock, dissolve the lyophilized powder using |  |  |  |
|                | 100           | ul of ddH2O.   |  |  |  |  |
| Storage/Stabi  | ility Ship    | ped at 4 °C. Store at -  | 20 °C for one year. Avoid freeze-thaw cycles after       |  |  |  |
|                | reco          | institution.   |  |  |  |  |

Application key: E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC-Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference Species reactivity key: H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb-Rabbit, S- Sheep, Z- Zebrafish
